

FIGURE 2

FIG. 1 is a block diagram of a system for processing data. The system includes a data source 100, a processor 110, and a data sink 120. The processor 110 is connected to the data source 100 and the data sink 120. The processor 110 includes a control unit 112 and a data unit 114. The control unit 112 is connected to the data unit 114. The data unit 114 is connected to the data sink 120. The data source 100 is connected to the processor 110. The data sink 120 is connected to the processor 110.
